Current price of 2021: 11,500.00 PKR The Pakistani founded Prince Motors Company became the brand of Regal Automobiles Industries Pakistan and DFSK of China in 2003 in view of the CPEC project and after the success of its Glory 580, C37, KO1 and KO7 have recently launched the long-awaited Pearl on January 31, 2020 at an event in Lahore, while reservations have also been initiated at several dealership showrooms in Karachi, Hyderabad, Sindh, Multan, Lahore, Faisalabad, Gujrat, Sahiwal, Gujranwala, Sargodha, Islamabad, Kohat, Rawalpindi and Peshawar. Customers have to pay 350,000 Pakistani rupees minimum amount at the time of booking and the remaining amount must be paid fifteen days before the delivery of the car. Regal engines have made it mandatory that Prince Pearl cannot be booked multiple times by a single CNIC number. It is an 800cc car that was formerly on lahore roads being tested for official launch and customers were eagerly awaiting its release date and finally when everything is available for sale, their bookings are increasing day by day. It is available in a single variant that includes the MT finish that offers you a four-speed manual transmission and economical and economical fuel economy savings. 2020 Prince Pearl Title Image Engine, Transmission and Performance: Works with a 796cc EFI OHC in-line engine that produces a maximum power of 40 hp at 5500 rpm and torque of 60 Nm. As mentioned above, it is initially only available with manual transmission which gives you the option of four-speed gear accelerators. It offers you a top speed of 120 to 130 kilometers per hour with maximum efficient and smooth throttle change, while engine fuel efficiency is also remarkable to offer you an average mileage of twenty kilometers per liter in the city and twenty-two kilometers per liter on roads with a fuel tank capacity of twenty-seven liters. It gives you a firm and composite ride with its narrow tires and soft suspension, while the braking system also becomes satisfactory to apply emergency brakes when driving on narrow city streets and on race roads, but your engine can make sometimes irritating noises at high speeds (About all small engines with capacity no more than 800c makes sounds at high speeds) but it makes sounds at high speeds) but it makes it loud suitable and a perfect ride for city traffic. Electric power-assisted steering is very light and easy to operate which makes the turn and curves in this city easier and make you feel like a pro and makes your trip more even in heavy traffic. Exterior design and features: ? This spectacular car is 3610 millimeters long, 1570 millimeters wide and 1490 millimeters high with a ground distance of 145 millimetres and its own weight of 735 kilograms. The front is aggressive with elegant curves and elegant xenon headlights equipped with fog lights to help drivers in extreme weather conditions. A narrow chrome accented grille at the front holds the company logo on it improving its beauty, while the rear end resembles Swift giving it a mini carriage look, while thirteen-inch alloy wheels give it a style and high quality tires enough grip on the road.
